

"Promoting Green Deal Readiness in the Eastern Partnership Countries' (PROGRESS)" Project

Key Objectives:

Policy Support - Collaborate with policymakers to establish evidence-based national policies that promote climate-resilient and green economic development.

Business Engagement - Assist farmers and businesses in implementing climate-smart, eco-friendly practices along their production pathways.

Community Awareness - Enhance public understanding and support for eco-friendly economic measures through

Green Finance - Improve access to environmentally responsible financial services for farmers and enterprises.

Regional Cooperation - Foster knowledge sharing and collaboration among EaP countries to replicate successful practices and achieve a broader impact.

2 Mentoring and peer learning sessions on: **Green, resilient and climate-oriented practices - applicative aspects**
